## **GENERAL MEDIATION COURSES**

#### **Basic Mediation Skills**

5-days/40 hours

Basic Mediation Skills is the comprehensive, foundations course which focuses on mastering the mediation process. JCA teaches the facilitative model of mediation.

Participants will learn the basics of conflict resolution theory and the essential skills necessary for mediating general/civil cases in the courts, public agencies, or private settings. Core competencies include: adopting a mediator mindset, learning the language of resolution, identifying sources of conflict, recognizing the dynamics of conflict, and understanding various approaches to conflict resolution. Significant emphasis is placed on the common ethical and national standards mediators must abide by in providing services in all settings.

This class is highly participatory and interactive. Students will watch and/or take part in 11 different mediations through live demonstrations, role-plays, and videos. Everyone will mediate one full case.

This training is approved by the Georgia Office of Dispute Resolution for registration in the general/civil neutral category.

## **Advanced Mediation Skills**

3-days/20 hours

Prerequisite: Must have completed a basic mediation course

Advanced Mediation Skills focuses on in-depth skill development in the areas of agreement writing, question asking, rapport building, and trouble-shooting. It addresses co-mediation and the problems and assets of this approach. Emphasis is on more complex cases involving multi-party, multi-issue mediations. Everyone will participate in four challenging role-plays and mediate at least one of the role-plays. Participants will engage in comprehensive reading and discussions regarding ethics opinions provided by the Georgia Commission on Dispute Resolution.

Advanced Mediation is designed to provide additional experience to people already trained in the basic components of the facilitative mediation process. Participants are expected to be familiar with the mediation process and to come prepared with an opening statement. Advanced preparation materials will be emailed to students prior to class to help refresh/prepare for the training.

This training does not lead to registration as a mediator in Georgia. It does fulfill the GODR continuing education requirement.

## **SPECIALIZED MEDIATION COURSES**

# Mediation in Special Education 3-days/20 hours

Mediation in Special Education is designed to teach professionals engaged in special education (teachers, administrators, therapists, attorneys, administrative law judges) the basic mediation process and how it relates to special education law. The mediation skills, such as dealing with difficult and angry people and the language of resolution, are especially helpful to educators as they conduct parent/teacher conferences, lead IEP meetings, advocate on behalf of their students with other professionals, and communicate with general education colleagues. The ability to utilize mediation skills in parent/faculty interactions can de-escalate contentious situations.

This training does not lead to registration as a mediator in Georgia. It does fulfill the GODR continuing education requirement.

# Continuing Education

1/2-day/3 hours

Continuing Education seminars are offered on a variety of topics twice a year. The CE classes provide registered mediators the 3 credit hours required annually to renew your registration. Specific topics to be discussed are published on the JCA website in the fall.

# Mediation in Workplace Disputes 3-days/20 hours

Government agencies or private businesses can contract with JCA to provide Mediation in Workplace Disputes for your staff at your location.

### Minimum of 15 participants required.

Mediation in Workplace Disputes is a basic course focusing on disputes that arise in the workplace including EEO grievances; complaints concerning the Americans with Disabilities Act and the Civil Rights Act of 1964, as amended (EEO matters); grievances of federal sector employees—both civilian and military—who must implement 29CFR Part 1614; and disputes in the corporate setting. The course is intensive, highly participatory and designed to teach the mediation process, increase knowledge of the language of neutrality and resolution, and enhance communication and negotiation skills.

### **Mediation Credentials**

In Georgia, the Alternative Dispute Resolution (ADR) Rules are established by the Georgia Supreme Court. The Supreme Court established two entities to oversee the ADR programs, the Georgia Commission on Dispute Resolution and the Georgia Office of Dispute Resolution (GODR). Their responsibilities include developing criteria for training and qualifications of neutrals. The Justice Center of Atlanta's mediation courses that lead to registration have been approved by the GODR.

Mediators who want to mediate in GA court-connected programs MUST be registered with the GODR. Registration provides many benefits. Being a "Registered Neutral" is a credential that sets mediators apart.

JCA strongly encourages all participants to register with the GODR or their own state's ADR program. It is the responsibility of each participant to review the requirements for registration in their area. JCA recommend that you review these requirements before enrolling in any mediation training.

For more information about registering as a mediator in Georgia contact:

Georgia Office of Dispute Resolution 244 Washington Street, SW Suite 300 Atlanta, GA 30334-5900 404-463-3788 gaodr@godr.org www.godr.org

For information about requirements for mediators in other states, contact your state's ADR Office.

\*The fact that a training program has been approved by the Georgia Office of Dispute Resolution does not imply that any particular court-annexed or court referred program must or will accept as neutrals those who have completed that program. Each local court program is expected to exercise its discretion with reference to the qualifications of each neutral and may inquire into the training received by such neutral. Completion of a state-approved program does not automatically qualify one as a neutral in any particular local program.
